**Re: Neuro-ophthalmology Fellowship at Weill Cornell**

Dear Department Chairman / Dear Program Director,

The Department of Ophthalmology at Weill Cornell Medical College and the New York-Presbyterian Hospital has created a new fellowship training program beginning July 7, 2011, and I would appreciate your help in spreading the word to your residents.

Our campus is one of the largest medical centers in the nation and is comprehensive in scope with highly respected programs in Ophthalmology, Neurology, Neurological surgery, and all other medical disciplines. The fellowship will provide excellent training in neuro-ophthalmological diagnosis and management of adults and children in both the outpatient and inpatient setting. There will be a significant opportunity to perform either clinical research in neuro-ophthalmology or related translational research at the Margaret M. Dyson Vision Research Institute during the fellowship. The fellowship preceptors will include Marc Dinkin, M.D., Rich Levy, M.D. and Jacqueline Winterkorn, M.D., Ph.D.

Applications are being accepted for the July 2011 and July 2012 academic years. Interested residents should send a letter of interest, their CV and three letters of recommendation. All applicants must have completed an accredited (or equivalent) program in Neurology or Ophthalmology.

All inquiries and information should be forwarded to:

Marc Dinkin, M.D.

Director of Neuro-Ophthalmology

Phone: 646-962-2053 Fax: 646-962-0600

Thank you in advance for your assistance in passing this information along.

Sincerely,

A handwritten signature in black ink, appearing to read "Donald J. D'Amico".

Donald J. D'Amico, M.D.  
Professor and Chair
